Backend / Full stack Developer with **2+ years** of experience in **Automotive, Telecommunications, and Cloud Technologies** across **B2B** and **B2C** domains. I am a **Certified AWS Cloud Practitioner**.

## WORK EXPERIENCE

### T-Systems Iberia

Tarragona, Spain (Hybrid)

January 2023 – Present

#### Java Developer

at project "PIXEL" for Volkswagen AG in Automotive industry.

- Developed and supported **3** applications used at all levels of customer support with a total of over **50 000** active users on every continent of the company's presence.
- Participated in **50+** sessions to transfer knowledge and responsibility from another company.
- Implemented Swagger for API testing, which reduced integration time by **20-30%**.

**Stack:** Microservices · Java 17 · Spring Framework · Spring Boot · PostgreSQL · ReactJS · Docker · AWS · JUnit5 · Mockito · Jira · Git · Gradle · Confluence · Swagger

#### Java Developer & Jira Administrator

at project "Support TOOLS" for Open Telekom Cloud in Cloud Technologies industry.

- Developed **4** plugins for Jira (**3** customizing Jira operations, **1** for Jira interaction with Cloud subsystems).
- Administrated Jira for **more than 100** B2B clients. Built from scratch and maintained infrastructure for **4** new B2B clients.
- Discovered and fixed **20+** plugins bugs.
- Onboarded **2** new colleagues to the team.
- Initiated the use of Clean Code principles in development processes, which improved code readability, maintainability, and accelerated merge request review by around **30%**.

**Stack:** Java 11 · Spring · Atlassian SDK · Groovy · JUnit5 · Mockito · Jira · Confluence · Git · Maven · Swagger

#### Java Developer

at project "CA-Analytics" for Deutsche Telekom in Telecommunications industry.

- Added **4 new features**. Maintained by my own epic. Developed and **supported more than 15** functionalities.
- Proposed, designed, and implemented new test tool functionality that **enabled 1000% faster** test tool performance.
- Increased test coverage from **40% to 92%** (developed **400+** tests).
- Successfully conducted **10+** demos, **5** customer training, **4** knowledge transfer sessions.
- Planned, tracked and managed **50+** deliverables on short-term sprints and long-terms software deployments.

**Stack:** Microservices · Java 17 · Spring Boot · ReactJs · PostgreSQL · Prometheus · Grafana · JUnit5 · Mockito · Jira · Confluence · Git · Maven · Postman · GitLab CI.

## EDUCATION

### St. Petersburg State University of Telecommunications

Master's Degree in Computer Systems, Networking and Communication System

St. Petersburg, Russia

September 2014 - June 2019

**Main skills:** Computer Science · Core Java · Communications Systems · Solution Architecture · Network Design · Network Administration · Network Security · Information Security

### T-Systems Iberia JAVA School

Java Development Technologies and practices.

Tarragona, Spain

August 2022 - December 2022
